1. Gromadka (Gremsdorf-052/B53) is situated on the road which runs northeast from Boleslawiec (Bunzlau) to Grodzamowice (Freulich) village and Modla (Modlau). It is located about nine kilometers from Boleslawiec on the single track railroad line which was built in 1945.
2. A large factory producing aircraft parts is located here. Only Germans under Soviet supervision are employed in this factory. The main entrance is guarded by Soviet soldiers. A high fence around the factory conceals the grounds from view. Two large factory buildings can be seen; one building borders the street, the other is further inside the area. The buildings are two stories high and about 60 meters long. Each building has a chimney about 25 to 30 meters high.
3. A munitions plant is located about 100 meters beyond the post office, outside the town. Shells are manufactured in this factory.
